ABOUT SCHOLARBRIDGE

# Better research begins with *better questions.*

ScholarBridge Research Consultancy is an independent, ethical research consultancy based in the United Arab Emirates and open to researchers worldwide. We provide methodological, analytical and editorial guidance to PhD researchers, master's students, faculty, independent researchers and research institutions.

Our approach centres on helping clients understand the choices behind their work: why a method fits, what the data supports, and how to present a study transparently. We support independent researchers from initial concepts through analysis and manuscript improvement.

Every enquiry is reviewed individually to define a responsible scope, and every engagement starts with a written scope, quotation, timeline and deliverables agreed before work begins. Consultations are held online, by prior arrangement, with time zones agreed personally.

> *"Thoughtful methods. Transparent progress."*

OUR APPROACH · BUILT AROUND RIGOUR, NOT SHORTCUTS

A PERSONAL NOTE

# Message from the *Founder*

*"Your research remains yours. We guide, review, edit and teach."*

*Dear Researcher,*

Every strong study begins with a good question — and with a method that can answer it honestly. I founded ScholarBridge Research Consultancy because capable students and scholars too often lose time and confidence, not for lack of ideas, but for lack of clear, patient guidance on methodology, analysis and academic writing.

From our base in the United Arab Emirates, we work online with master's and doctoral researchers, faculty and research teams in the Gulf, China, the United Kingdom, the United States, Europe and beyond. Whether you are shaping a proposal, interpreting a PLS-SEM model, organising a systematic review or preparing a response to reviewers, our role is to help you understand the choices behind your work: why a method fits, what your data can and cannot support, and how to present your study transparently.

One principle guides everything we do: your research remains yours. We guide, review, edit and teach. We do not write theses or assignments for submission, fabricate data, or promise publication — journal decisions belong to editors and reviewers, and we will always be honest about realistic outcomes.

Every enquiry is reviewed individually, and every engagement begins with a written scope, quotation and timeline that you approve before work starts. Your documents are handled with care and in confidence.

If you are ready to move your research forward with rigour and integrity, I would be glad to hear about your project.

**Imran Alam Qureshi**
Founder, ScholarBridge Research Consultancy

WHAT GUIDES US

# Scholarship with *purpose.*

### OUR VISION

To be a trusted bridge between good research questions and rigorous, transparent evidence — for researchers in the UAE and around the world.

### OUR MISSION

To provide professional guidance that helps researchers, doctoral scholars and academic teams turn complex questions into rigorous methods, thoughtful analysis and clearer scholarly communication — while strengthening their own independent research skills.

## Core values

**01** **Methodological clarity**
Appropriate analytical choices that fit the research question and the data.

**02** **Transparent collaboration**
Constructive feedback, agreed deliverables and open communication at every step.

**03** **Confidentiality**
Respect for client confidentiality and careful handling of research material.

**04** **Integrity & independence**
Academic integrity and researcher independence are non-negotiable.

**05** **Realistic expectations**
Honest advice about journal outcomes — no guaranteed publication, ever.

**Question → Method → Evidence.** We aim to support your research decisions with transparent methods, clear communication and respect for academic independence.

WHO WE SERVE

# Support for every *research milestone.*

### Master's students

Dissertation planning, methods choice, survey design, analysis guidance and editing.

### PhD & doctoral researchers

Methodology coaching, milestone reviews, statistical interpretation and thesis-chapter feedback.

### Faculty & academics

Manuscript editing, journal selection, reviewer-response preparation and analysis support.

### Research teams & institutions

Study design, questionnaire development, systematic reviews and documented analysis workflows.

### Independent researchers

Practical, scoped consultation for scholars working outside formal programmes.

### Any research field

Tell us your field at enquiry; fit, methods and available expertise are confirmed during scope review.

## Global reach, online by design

Based in the United Arab Emirates and open to international enquiries. Consultations are held online by prior arrangement, with your preferred date, time and time zone agreed personally.

### United Arab Emirates

GST · UTC+4

Our home base — convenient daytime and evening sessions.

### China

CST · UTC+8

Afternoon UAE sessions fall in the Beijing/Shanghai evening.

### United Kingdom

GMT/BST · UTC+0/+1

Morning to afternoon UK sessions overlap our working day.

### Europe

CET/CEST · UTC+1/+2

Comfortable overlap across most of the European working day.

### United States

ET–PT · UTC−5 to −8

Early-morning US / late-afternoon UAE slots, by arrangement.

| One session, five time zones* | Dubai | Beijing | London | Paris / Berlin | New York |
|---|---|---|---|---|---|
| | 16:00 | 20:00 | 12:00 | 13:00 | 07:00 |

**Illustrative example during Northern-Hemisphere winter time (Nov–Mar). Times shift by one hour when daylight saving applies.*

OUR EXPERTISE

# Practical guidance. *Rigorous thinking.*

Targeted support for research design, data analysis, literature synthesis and academic communication. Every engagement begins with defining an appropriate scope.

01

## Research Design & Methodology

From research questions and theoretical frameworks to sampling approaches, research strategies and method selection.

- Quantitative, qualitative and mixed-methods design
- Research questions and theoretical frameworks
- Sampling, recruitment and ethical-review planning
- Qualitative interviews, coding and reflexivity
- Mixed-method integration and transparent limitations

02

## Statistical Analysis & Interpretation

Guidance for SPSS, SmartPLS, R and Python, including diagnostics, modelling and clear interpretation.

- PLS-SEM and confirmatory factor analysis
- Reliability and validity testing
- Mediation and moderation analysis
- Regression and panel-data econometrics (fixed & random effects)
- fsQCA, robustness checks, research charts and tables

03

## Survey & Questionnaire Design

Construct development, literature-grounded measures, survey structure and pilot-testing guidance.

- Scale adaptation with source attribution and permissions
- Content validity and expert review
- Pilot testing and cognitive interviewing
- Survey design, response options and accessibility
- Measurement documentation and translation planning

**Responsible support:** you retain authorship and responsibility for your work. We do not ghostwrite assessed work, fabricate results or offer purchased authorship. Publication and journal acceptance are never guaranteed.

04

## Systematic & Literature Reviews

Search strategies, screening methods, synthesis and transparent systematic-review workflows.

- PRISMA 2020 reporting and protocol development
- Database searching and search-strategy development
- Inclusion/exclusion criteria, screening and exclusion logs
- Research extraction matrices
- Thematic synthesis; bibliometric analysis where appropriate

05

## Manuscript Editing & Publication Preparation

Academic language, structure, scholarly argumentation, formatting and submission-readiness review.

- Academic English editing and argument improvement
- Manuscript structure and formatting
- Journal selection guidance
- Reference checking and citation consistency
- Reviewer-response (rebuttal) preparation; tables, figures and submission documents

06

## Research & Doctoral Mentoring

Practical consultation for postgraduate and doctoral researchers working independently on theses and dissertations.

- Research planning and milestone reviews
- Methodology coaching
- Statistical interpretation
- Research presentation and poster support
- Feedback that builds independent research skills

### WHAT YOU CAN EXPECT

After an initial discussion, we propose a written scope, quotation, timeline and deliverables for your approval. Depending on the agreed scope, deliverables may include an annotated review, a documented analysis workflow, an interpretation session or a methods action plan. Tool and method choices depend on the research question, data quality and available expertise.

### CONSULTATION TYPES

Research consultation · Statistical analysis consultation · Systematic literature review consultation · Manuscript assessment consultation · Doctoral research mentoring · General academic consulting

HOW WE WORK

# A clear process. *An ethical partnership.*

1

**Send an enquiry**

Share a brief, non-sensitive summary of your project, the support you need and your timeline — via WhatsApp, email or the website form.

2

**Listen & define**

We discuss your research aims, scope, methods fit and practical constraints, in a session arranged in your time zone.

3

**Plan & agree**

You receive a written scope, quotation, deliverables and schedule. Nothing starts until you approve it.

4

**Guided support**

We provide the agreed consultation, review, editing or analysis guidance, with transparent progress.

5

**Review & next steps**

We clarify findings and next steps together — without unsupported promises about outcomes.

## Why choose ScholarBridge

**Methodology-first**

We start with the research question and choose methods that genuinely fit it — not the other way round.

**Transparent deliverables**

Scope, quotation and timelines are agreed in writing before any work starts.

**Confidential handling**

Share a non-sensitive summary first; document access and handling are agreed before you share research material.

**Independent scholarship**

Ethical consulting, realistic expectations and no guaranteed publication outcomes.

**Broad analytical toolkit**

SPSS, SmartPLS, R and Python, from PLS-SEM and CFA to panel econometrics and fsQCA.

**Skills that stay with you**

Feedback designed to build your own research capability, not dependency.

**Global, online, time-zone friendly**

Based in the UAE, welcoming international enquiries with sessions arranged across time zones.

**End-to-end support**

From the first research question to reviewer responses — one consultancy across the research journey.

### Ready to begin?

Send a brief, non-sensitive summary of your project on WhatsApp +971 52 717 7257 or to scholarbridgeresearch1@gmail.com.

TOOLS & EXPERTISE

# From observations to *clear evidence.*

Methodology and analytical capabilities across quantitative, qualitative and mixed-methods research.

**SOFTWARE WE GUIDE ON**

SPSS | SmartPLS | R | Python

### Quantitative methods

- PLS-SEM
- Confirmatory factor analysis
- Reliability & validity
- Mediation & moderation
- Regression analysis
- Panel-data econometrics
- Fixed- & random-effects models
- fsQCA
- Robustness checks

### Qualitative & mixed methods

- Interview design
- Coding & thematic analysis
- Reflexivity
- Mixed-method integration
- Transparent limitations

### Evidence synthesis

- PRISMA 2020
- Search-strategy development
- Screening & exclusion logs
- Extraction matrices
- Thematic synthesis
- Bibliometrics (where appropriate)

### Scholarly communication

- Academic English editing
- Structure & argumentation
- Reference & citation checks
- Journal selection
- Reviewer responses
- Tables, figures & research posters

**RESEARCH AREAS OF INTEREST**

AI and sustainable logistics · supply-chain analytics · digital connectivity and food loss · cold-chain resilience · BRICS energy, carbon emissions and economic growth · climate resilience and sustainability · digital transformation

*These are research interests, not claims of completed client work, authorship, verified findings or publications.*

*Support is scope-dependent: project-specific capability and availability are confirmed during scope review.*

OUR PRINCIPLES

# Academic Integrity *Policy*

Research integrity is non-negotiable. We believe academic support should improve independent research practice, not substitute for it. We guide, edit and teach — the client always remains the author.

## What we support

- ✓ Research planning and methods consultation
- ✓ Survey and questionnaire design guidance
- ✓ Statistical analysis guidance and interpretation
- ✓ Literature-review methods (e.g. PRISMA 2020 workflows)
- ✓ Language and structural editing of your own writing
- ✓ Journal selection and reviewer-response preparation
- ✓ Feedback that helps you make your own scholarly decisions

## What we do not offer

- ✗ Ghostwriting of theses, dissertations or assignments for submission
- ✗ Fabrication or manipulation of data or results
- ✗ False, gift or purchased authorship
- ✗ Paid-acceptance arrangements or fake peer reviews
- ✗ Guaranteed journal publication or assessment outcomes
- ✗ Scholarship or admissions services

### We guide

Methods, design and analysis decisions — explained so you understand them.

### We edit

Language, structure and presentation of writing that is your own.

### We teach

Skills and feedback that build independent research capability.

CLIENT RESPONSIBILITY

Clients remain responsible for the integrity, originality, accuracy, authorship and ethical approvals applicable to their research, and for following their institution's rules and journal policies. Consulting does not confer authorship. Journal acceptance and academic outcomes are determined independently by editors, reviewers and institutions.

YOUR WORK, PROTECTED

# Confidentiality & *Data Privacy*

### Share a summary first

Use the enquiry form, WhatsApp or email for a non-sensitive project summary. Please do not send passwords, participant records or protected manuscripts in an initial enquiry.

### Agree handling in writing

Before an engagement we agree which documents are necessary, who may access them, a suitable transfer method, retention and deletion arrangements, and any confidentiality agreement (NDA).

### Data minimisation

Participant data should be minimised and de-identified where appropriate — we only work with what the agreed scope requires.

### No use in marketing

Client material, identifying details and unpublished findings are never used in marketing or portfolio materials without documented rights-holder permission.

### Your rights

You may request access to, correction of, or deletion of your enquiry and correspondence at any time by email.

### GDPR-aware practice

Our handling follows principles found in data-protection laws such as the EU/UK GDPR — purpose limitation, minimisation, de-identification and individual rights. Specific obligations are confirmed in each engagement agreement.

## Answers before you begin

**Do you guarantee journal publication?**

No. Journal decisions are made independently by editors and reviewers. We support ethical manuscript improvement and submission preparation, without promises of acceptance.

**Can you write my thesis or assignment?**

No. We focus on consultation, methods guidance, editing, analytical interpretation and building independent research skills. We do not ghostwrite assessed academic work.

**Can I consult from outside the UAE?**

Yes. International enquiries are welcome, subject to scheduling and agreement on the scope.

**How do I receive a quotation?**

Send a brief description of your project and the support you need. We review the request before proposing a scope and quotation.

**Is my consultation booked when I send the form?**

No. A form or message is an enquiry only; a consultation is confirmed once we respond and agree a meeting time.
